

NIGHT LIGHT PUPPY CAMP

immersive boarding
experience
developing stable puppies

Night Light Puppy Camp is a 1-week overnight camp for puppies ages 8 weeks to 6 months. During Camp they will be exposed to sleeping overnight at our facility (a great way to get them started boarding so that your travel plans aren't limited); learn basic commands; and, be exposed to social play with other pets their size.

- **Comprehensive Approach:** Night Light Puppy Camp offers a holistic approach to puppy development and enrichment, covering aspects like behavior, socialization, and basic obedience. The goal of a comprehensive strategy is to develop well-rounded and happy puppies.
- **Overnight Boarding Exposure:** Introducing puppies to overnight stays early on is a great way to prevent anxiety when pet owners need to travel. This exposure can help them become more comfortable with new environments, promoting a positive boarding experience in the future.
- **Socialization with Other Pets:** Socialization is crucial for a puppy's development. Allowing them to interact with other puppies of similar ages helps build their social skills and ensures they grow up to be well-adjusted and friendly adult dogs.
- **Basic Command Training:** Teaching fundamental commands such as sit, down and come is essential for a well-behaved and obedient pet. Learning these skills while boarding lets the puppy work on them in spurts, giving them time to assimilate the information and retain it.
- **Age-Appropriate Training:** Tailoring the training to the specific age group of 8 weeks to 6 months ensures that the curriculum is developmentally appropriate for the puppies attending the camp.
- **Peace of Mind for Owners:** For pet owners, Night Light Puppy Camp provides peace of mind, knowing that their puppies are not only learning important skills but are also getting used to the idea of staying overnight in a new environment.
- **Graduation Ceremony Involvement:** At the culmination of the week, pet owners are invited to graduation where they will learn how to ensure continuity in reinforcing the commands the puppy learned in order to create a stronger bond between them.

Friendsville Animal Center requires an in person meeting with the owner and the puppy prior to enrollment in Night Light Puppy Camp. Age appropriate vaccinations are required prior to check-in.

Introducing a puppy to new things and watching their little minds assimilate the information is like seeing a light switch turn on. When they are introduced to new things in a positive and safe environment, they become stable pets.
